

Maps Phonebook Lab!

Purpose: Help the student practice maps by creating and accessing a phone book

Goal: be able to print the name and phone number of everyone in the book as well as being able to add a person to the phone book and access a specific person's phone number

Sample Input

```
PhoneBook.add(Vanessa, 345);  
PhoneBook.add(Mihret, 378);  
PhoneBook.get(Vanessa);  
PhoneBook.printMap;
```

Sample Output

```
Vanessa's number is 345  
[Vanessa, 345, Mihret, 378]
```
